PROFESSIONAL SUMMARY

AI & Automation Engineer with 2+ years building production AI agents, voice agents, RAG systems, and RPA workflows for enterprise clients across the UAE and India. Owns delivery end to end — architecture, Python/FastAPI backends, React/TypeScript dashboards, LangGraph orchestration on Azure OpenAI, and cloud deployment. Microsoft-certified (PL-500, AI-900, DP-600, DP-700) and a 5x hackathon winner.

CORE EXPERTISE

AI & Agents: AI Agents, Agentic AI, Multi-Agent Systems, LangGraph, LangChain, MCP, RAG, LLMs, VLMs

Voice & Conversational AI: Azure OpenAI GPT Realtime and GPT-4o, Twilio, Kaleyra, Whisper large-v3, Azure Avatar Services

Automation & RPA: n8n, Power Automate (Desktop & Cloud), Microsoft Copilot Studio, Power Apps, business process automation

Development & Cloud: Python, TypeScript, FastAPI, Flask, Django, React, REST APIs, Azure (AI Foundry, Communication Services), AWS, GCP

Data & Integrations: Microsoft SQL Server, PostgreSQL, Supabase, Neo4j, Power BI, Meta Graph API, Shopify, Cashfree, SAP, Odoo

PROFESSIONAL EXPERIENCE

Unlimited Innovations India Pvt. Ltd.

Chennai, India

Career progression: Software Engineer Intern → Trainee Software Engineer → Junior Software Engineer

Junior Software Engineer

Nov 2025 – Present

- Owns end-to-end delivery of AI voice agents, multi-agent platforms, and RAG systems for enterprise clients in the UAE and India — architecture, APIs, dashboards, and Azure deployment.
- Architected a six-agent LangGraph platform for an oil & gas turnaround program, integrating Microsoft SQL Server and SAP for predictive alerts, what-if simulation, and approval workflows.
- Built production voice agents on Twilio and Azure GPT Realtime for a UAE hotel, automating booking, rescheduling, cancellation, upsell, and human handoff.

Trainee Software Engineer

May 2025 – Oct 2025

- Developed a call analytics platform (Whisper large-v3 + Azure GPT-4) that scores agents and surfaces top complaints, replacing 100% of manual call auditing.
- Delivered multi-agent n8n automation handling Instagram and Facebook DMs, comments, story replies, and Google Reviews across multiple retail branches.

Software Engineer Intern

Jan 2025 – Apr 2025

- Automated payment-gateway reconciliation (PhonePe, Paytm, Pine Labs against Odoo settlements) and ICICI Bank export-bill regularization for a pan-India retailer using Power Automate Desktop, Excel Macros, and Cashfree/Shopify APIs.

SELECTED AI & AUTOMATION PROJECTS

Multi-Agent Turnaround Orchestration Platform — Oil & Gas

LangGraph, Azure OpenAI GPT-4o, RAG, Flask, React/TypeScript, Microsoft SQL Server, SAP

- Six specialised agents covering risk, materials, vendor, procurement, workforce scheduling, and work monitoring — cut turnaround planning cycle time by ~40%.
- Predictive alert strip and what-if simulator flagged critical issues 2–3 days earlier; generative-UI assistant handles queries, approvals, and email.

AI Voice Agents for Hotel Reservations

Twilio, Azure OpenAI GPT Realtime, RAG, Python

- Telephony agents book, reschedule, cancel, upsell, and transfer to a human on cancellation intent — automating ~70% of routine inbound calls.
- RAG knowledge base built from website scraping and document ingestion, reaching 90%+ answer accuracy.

Customer-Support Call Audio Analytics

Whisper large-v3, Azure GPT-4, ffmpeg, Flask, React/TypeScript, Azure VM

- Webhook ingestion from the Kaleyra telephony provider, transcription, and tone analysis replaced 100% of manual call auditing.
- Scores and segments every call, surfacing top complaints, peak hours, competitor mentions, and agent performance for coaching.

Social Media Engagement Automation — Instagram / Facebook / Google Reviews

n8n, Meta Graph API, VLMs, Shopify APIs

- Multi-agent n8n system auto-responds to DMs, comments, story replies, and Google Reviews across multiple stores.
- Vision-language models analyse reels to detect SKUs, with Shopify lookups keeping replies catalogue-aware.

Sensei — Intelligent Virtual Teaching Assistant

Azure Avatar Services, FastAPI, React/TypeScript, Supabase vector database

- Avatar-based tutor auto-generates a syllabus from uploaded documents, with live raise-hand Q&A and VLM-based vision proctoring.

CERTIFICATIONS

- **Microsoft PL-500** — Power Automate RPA Developer Associate
- **Microsoft AI-900** — Azure AI Fundamentals
- **Microsoft DP-600** — Fabric Analytics Engineer Associate
- **Microsoft DP-700** — Fabric Data Engineer Associate

EDUCATION

B.Tech in Information Technology (Honors)

Meenakshi Sundararajan Engineering College, Chennai

2021 – 2025

CGPA: 8.48 / 10

ACHIEVEMENTS

- **5x Hackathon Winner** — Scale India 91 Hackathon, an internal corporate hackathon, and college hackathons.
